Upcoming

Ï 1st International Conference on Desalination using Membrane Technology, ICDMT-1 Sitges (Spain), from 7 Apr 2013 to 10 Apr 2013. http://www.desalinationusingmembrane.com/index.html

Ï Workshop of the nano4water cluster: Nano- and membrane-based systems for water treatment
, 17-18 April 2013, Dresden, Germany.

The nano4water cluster has initially been set up as a tool for coordination between and dissemination from the five projects resulting from the joint ENV-NMP call in 2008. In the meantime further NMP projects joined the cluster or expressed interest in joining it. So this cluster is developing into a focal point for EU research in nano-enabled water treatment, which we would like to maintain.
The nano4water series aims on bringing together activities and results of the areas named above allowing finding synergies to boost development status and ways into application.

Ï WASSER BERLIN INTERNATIONAL Congress, 23-26 April 2013, Berlin, Germany.

The congress program and special conferences feature up-to-date, practice-oriented topics directly related to the latest issues. Participants can look forward to a mixture of technical, political, and economic themes and solutions. Plus:

Presentations by experts from utilities and specialized companies, industry associations, government ministries and research institutes. This unique information platform provides a complete picture of the current state of technology in your industry.

Ï 9th European Conference of Chemical Engineering (ECCE9) and the 2nd European Conference of Applied Biotechnology (ECAB2) The Hague- The Netherlands, 21-24 April 2013 www.ecce2013.eu

Ï Membrane Course for Water Technologies, MCW Aachen (Germany), from 5 Jun 2013 to 6 Jun 2013. http://www.avt.rwth-aachen.de/mcw/

Ï10th IWA Leading Edge Conference on Water and Waste Water Technologies 3-6 June 2013, Bordeaux, France

Web: www.let2013.org

Ï 23rd NAMS Meeting, NAMS Noise (ID) - U.S.A., 8 – 12 June 2013 jerry.lin@asu.edu

Ï XXX EMS Summerschool, Membrane process Essen-Germany, 22-27 July 2013.

http://www.emsoc.eu/ems/site/events/list_events.php

Ï 9th World Congress of Chemical Engineering NCCE-9 Seoul-S. Korea, 18-23 August 2013 http://wcce9.org

International Conference on Membranes, ICOM Suzhou - China, 20 -25 July 2014

Ï The World Water Week in Stockholm, 1-6 September 2013- Stockholm

World Water Week is hosted and organised by the Stockholm International Water Institute (SIWI) and takes place each year in Stockholm. The World Water Week has been the annual focal point for the globe's water issues since 1991.

Every year, over 200 collaborating organisations convene events at the World Water Week. In addition, individuals from around the globe present their findings at the scientific workshops.

World Water Week theme Each year the World Water Week addresses a particular theme to enable a deeper examination of a specific water-related topic. While not all events during the week relate to the overall theme, the workshops driven by the Scientific Programme Committee and many seminars and side events do focus on various aspects of the theme. 2013 theme is Water Cooperation - building partnerships. Browse this website to see the Thematic Scope for 2013 on Water Cooperation, and the workshops covering different aspects of the theme.
